[“The Pass-Through of Loan-Loss-Provisioning on Mortgage Lending: Evidence from a Regulatory Change”](#) with Mauricio Calani, *Journal of Banking & Finance*, 135, 106359, 2022.

Macroprudential policy and instruments are at the center of the discussion when (re)thinking about banking regulation. In particular, sectoral macroprudential devices have gained momentum to curb specific credit markets. However, there is scarce evidence on how, and by how much, these policies affect the credit markets they are intended to target. In this paper, we analyze one such regulation. We study how loan-loss-provisioning (LLP) affects the mortgage lending market. We do so by leveraging a policy change in Chile, that raised provisions, coupled with rich administrative data for the census of all real estate transactions, interest rates on mortgage loans, and bank balance sheet data. We find that the LLP regulation lowered the loan-to-value (LTV) ratio of granted loans by 2.8% and 9.8% for the mean and median borrowers, respectively. Banks with weaker balance sheets showed more extensive adjustments. We also find that the pass-through of higher expected provisioning cost to lending rates was quantitatively very small, reaching an upper bound of 0.2% at most. We argue that this evidence supports the notion that under imperfect information, banks do not compete only in terms of interest rates, but also in lending standards, and this latter channel can dominate the former.

WORK IN PROGRESS

“Inequality and Asset Prices in Heterogeneous Agent Economies”

(DORMANT) WORKING PAPERS

“A Macro-Financial Model for the Chilean Economy” (with Mauricio Calani, Benjamín García, Tomas Gomez, Mario Gonzalez, Sebastián Guarda, & Marco Piña) Central Bank of Chile, Working Paper 953 (2022).

“Global Drivers and Macroeconomic Volatility in EMEs: a Dynamic Factor, General Equilibrium Perspective” (with Gent Bajraj, Andres Fernández, Miguel Fuentes, Benjamín García, Jorge Lorca, & Juan Wlasiuk) Central Bank of Chile, Conference Volume (2023).

RESEARCH EXPERIENCE

Research Assistant to Dr. Wei Cui, **University College London** *Sept 2022 -*
Economic Analyst, **Central Bank of Chile, Economic Research Area** *Oct 2019 - Aug 2022*
Economic Analyst, **Central Bank of Chile, Financial Stability Area** *2018 - Sept 2019*

TEACHING EXPERIENCE

University College London *2023*
Supporting Teaching Assistant: Asset Pricing, Time-Series Econometrics (MSc Level)

HONOURS AND AWARDS

MRes/PhD Scholarship. Awarded a fully-funded scholarship to pursue doctoral studies. University College London, UCL School of Management.

BECAS-CHILE Master's Scholarship. Awarded a fully-funded academic excellence scholarship to pursue a Master's Degree in Economics in the UK. Chilean Government, Ministry of Education.

BICENTENARIO Bachelor's Scholarship. Awarded an academic excellence scholarship to pursue a BSc in Business and Economics in Chile. Chilean Government, Ministry of Education.
